Thanks Karen,

Just an FYI on tetraniliprole—I'm still working on it. Hope to be done this morning.

Yes, he is. I included more details on the list.
Let me know if you have questions,
Karen

Thanks Karen,

This is helpful. Is Nick the lead biologist on hog gone?

Subject: to do list

Hi Michael,
I made a list of things for you to work on. Please let me know if I am missing anything.

1. Aldicarb related items: Q&A and Decision memo review.
2. Tetraniliprole RTC-Christina is the lead. It is ready for review (which I think you did)
3. Isoxaflutole GMO game plan with Jerrett. Not clear about timeline as this is a tricky one but we have to have a plan to move forward.
4. Fluanzaindolizine S3NU review-is going for review this week (Tamara and Megan are the lead)
5. Ipflufenquin hazard review (Nick is the lead)
6. Ipflufenquin GTA review (Nick is the lead)
7. Endothall RTC end of January (You are the lead on this one)
8. Triadimefon ERA review (February, Nick and Megan are the leads)
9. Hog gone review (not until April, Nick is the lead). It is an EUP and its to verify that the labels and submission are ok. I am not sure if we need to draft a memo for this.

Thanks
Karen
